I. Major Activities During the Past Week:

A. Support to OSWR:

TADS (Telemetry Analysis & Display System) At the request of the IC Staff, a briefing and demonstration on TADS was given on 19 November to Air Force Systems Command Foreign Technology Div. personnel. Three members of the Comptroller's Staff, two members of the NFAC DP Staff, and an OSWR/CAB analyst also attended. [REDACTED]

STATINTL

B. Support to OPPPM:

FTE (Full Time Equivalency) We received the user requirements from OPPPM during this reporting period. We are reviewing these requirements to assure a mutual understanding of their purpose and content. [REDACTED]

STATINTL

C. Support to OC:

ADSTUDY (Study proposal for the replacement of the OC Cable Dissemination System) The study team has been formed, consisting of two OC and two ODP people. The study team's first effort will be to generate a scope and directions paper. The paper will detail framework within which the team will operate during the replacement study. The paper will also include the management plan for the study. [REDACTED]

STATINTL

II. Personnel Items:

[REDACTED] joined A Div. on 24 November as a part-time secretary.

Her old address: OC 3B29, x8108
Her new address: 2D42 [REDACTED] 8226

26 November 1980

MEMORANDUM FOR: Director of Data Processing
ATTENTION: Executive Officer
FROM: [REDACTED] Deputy Director for Processing
SUBJECT: Processing Weekly Report for
Week Ending 25 November 1980

STATINTL

1. System Availability: Attached is the Systems Availability Report.

2. CEMB cabled in the third Comten 3690 in GC-03 and removed all cabling that remained from the removal of 3670 Comten 4 from GC-03.
[REDACTED]

3. SPD reformatted the CAMS Tape Management Catalog (TMC) for the new Y tapes on 25 November. [REDACTED]

STATINTL

STATINTL

4. Operations Division and DBMB/Production Division has developed a plan to rotate personnel between the Data Base Control Center/DBMB and the two computer centers (Ruffing and Special). This will be for one week at a time. The idea is to gain an understanding of the operations in the different centers, as well as an appreciation for the different problems along with production requirements. [REDACTED]

STATINTL

5. Hardware availability is at a four month high in the Ruffing Center. The Special Center had a failure free week resulting in hardware availability of 100%. [REDACTED]

DDA/ODP
SYSTEMS AVAILABILITY SUMMARY
MONDAY 17 NOV 1980 THRU SUNDAY 23 NOV 1980

SYSTEM	CURRENT WEEK 17 NOV - 23 NOV	PREVIOUS 90 DAYS 18 AUG - 16 NOV	DIFFERENCE
BATCH	98.45	97.63	+.82
INTERACTIVE	97.94	96.60	+1.34
GIMS	97.54	96.32	+1.22
CAMS	99.16	98.59	+.57
OCR-COLTS	96.94	93.72	+3.22
OCR-RECON	97.14	93.98	+3.16
DDO-STAR	99.14	98.07	+1.07
OSWR-TADS	96.10	94.62	+1.48

All systems reported an above average week.

26 November 1980

MEMORANDUM FOR: Director of Data Processing
THROUGH : Executive Officer
FROM : [REDACTED] STATINTL
Acting Chief, Management Staff, ODP
SUBJECT : Management Staff Weekly Report
for Week Ending 28 November 1980

1982 Congressional Budget Justification Book (CBJB)

The initial input for the 1982 CBJB was submitted on schedule Monday, 24 November. This included the explanation and justification of change between 1981 and 1982 and 1980 accomplishments. The next requirement is a picture which is due 26 November. The photographer has taken pictures of the new Delta Data terminals and these pictures are scheduled to be finished in time to meet our deadline. The last requirement is for resource displays and these are due 15 December. Our hit figures have been input to FRS and no problems are anticipated in meeting this deadline, unless there are substantial changes in the 1982 budget. (U)

STATINTL

[REDACTED] (ODP ONLY)

Project Activity Report (PAR)

Verification of the new FY 1981 charge rates is proceeding slowly. A comparison run has been made of the September 1980 data using the new rates. As was expected, the incorporation of new rates combined with rerunning of a past month has compounded a normal verification effort. Additionally, some supporting data files are showing discrepancies between the two runs. (U) [REDACTED]

STATINTL

Personnel

STATINTL

[REDACTED] joined Policy and Plans Group, Management Staff on 24 November. She is on rotation from B Division, Applications, where she formerly worked on the Class-A Accounting Project. [REDACTED] office is in 2D0109, Headquarters and she may be reached on X5937. (U) [REDACTED] TL

STATINTL

FIPS PUBS

Management Staff distributed for comment two (2) draft Federal Information Processing Standards (FIPS): Codes for the Identification of Federal and Federally-Assisted Organizations and Federal Standard COBOL, Interpretation 6 - the SORT Statement. Comments on the draft FIPS are due into Management Staff by 5 December and 21 December respectively. (U) [REDACTED]

STATINTL

Outstanding Advances

As of 26 November there are 51 outstanding advances, none of which are delinquent. (U) [REDACTED]

SPS-E065-80
26 November 1980

MEMORANDUM FOR : Director of Data Processing
FROM : [REDACTED]
Deputy Chief, Special Projects Staff/ODP
SUBJECT : Special Projects Staff Weekly Status
Report for Week Ending 25 November 1980

1. SAFE

[REDACTED] presented a two day class on DMS-II, the data base management system developed for [REDACTED] equipment. A modified version of this system will be used by SAFE. The Consolidated SAFE Project Office and DIA personnel attended the sessions on 20 and 21 November 1980 in the Ames Building. [REDACTED]

2. ADSTAR

A. The ARO/OCR, a DDO representative, and the ADSTAR COTR visited [REDACTED] New Jersey location to discuss output legibility acceptance criteria. A live demonstration of the output system was also observed. Progress is encouraging, but the legibility has yet to meet Agency requirements.

B. The new VERIFY and UPDATE commands have been installed. The modification that permits microfiche to be spotchecked has also been installed. The new Batch-Update command is being tested [REDACTED]

Admin Staff has nothing of
importance to report for the
week ending 26 November 1980
